**January 8-10, 16-18: The Child and the Enchantments** Reservations open Nov. 2 For students in **grades K-3**  
Share the experience of attending an opera with your class! Maurice Ravel's work is performed in the original French, with dialogue in English, performed by the Florentine Studio Artists. **IP** reservations due Dec. 15; **B** reservations due Jan. 8

**January 29-31: Math Magical** Reservations open Nov. 30 For students in **3rd grade**  
Join us for this high-energy math program that touches on basic math, fractions, probability and more. Your students will discover math is not only fun, but necessary in our daily lives! **IP** reservations due Jan. 12; **B** reservations due Jan. 29

**February 12-14: Big Bang Bubbles** Reservations open Dec. 14 For students in **grades K-1**  
Your class will be amazed with bubble fog, fire and a nearly perfect cube bubble! Students will be engaged as they observe and discover the simple science concepts of chemistry, light and more! **IP** reservations due Jan. 26; **B** reservations due Feb. 12

**February 20-22: Math & Music Fusion** Reservations open Jan. 8 For students in **5th grade**  
Students get a backstage pass to the musical side of math in the upbeat, hands-on program which fosters a deep understanding of the math, fractions & patterns behind rhythm, pitch & scales. **IP** reservations by Feb. 2; **B** reservations by Feb. 20

**March 5-7: The Mousetrap Machine Show** Reservations open Jan. 18 For students in **grades K-1**  
A creative science program where student volunteers build on problem solving skills to work out how to combine simple machines to construct a successfully functioning mousetrap design! **IP** reservations due Feb. 16; **B** reservations due Mar. 5

**March 18-20: Science of Solutions** Reservations open Feb. 1 For students in **4th grade**  
Join us for this program focused on renewable vs. non-renewable resources, their connection with the food web and the related energy changes. Eye-popping demonstrations using lasers and electrostatic levitation teach conservation, magnetism and forces in a way kids will remember! **IP** reservations due Mar. 1; **B** reservations due Mar. 18

**April 9-11: Antarctica Penguin Expedition** Reservations Open Feb. 29 For students in **grades 2-4**  
Antarctic explorers take students on a thrilling adventure in search of penguins through the frigid white continent of Antarctica. Specimens and life-sized King and Adelie penguin models are used to demonstrate the unique biology of penguins in this interactive, marine biology program! **IP** reservations due Mar. 22; **B** reservations due Apr. 9

**April 15-17: Earth Rangers** Reservations Open Feb. 29 For students in **grades 5-6**  
This dynamic and interactive program featuring holograms and animatronics transports kids to ecosystems around the world – including a stop in our own backyard. Students learn about biodiversity and how to live sustainably and will be empowered to become Earth Rangers. **IP** reservations due Mar. 27; **B** reservations due Apr. 15

**April 29-May 1: Forces and Motion** Reservations Open March 14 For students in **grade 3**  
Students will be amazed by the often-intimidating field of physics. From the theory of gravity to modern physics, hands-on demos are used to inspire your class – facets of energy included too! **IP** reservations by Apr 12; **B** reservations by Apr 29

**May: Frank Lloyd Wright in Racine (tour and film)** Reservations Open Mar. 14 For students in **grades 5-7**  
Your experience includes a tour of the historic buildings at the SC Johnson worldwide headquarters, complementing your architecture curriculum. This one-hour program consists of a tour, a short film and plenty of time for questions! **IP** reservations and **B** reservations due from mid-April through mid-May
